

BioVentureHub

Application of Interest Form

Introduction

AstraZeneca established the BioVentureHub in 2014 with the aim to stimulate innovation and to further strengthen competitiveness and dynamism in the life science industry. The BioVentureHub is a great example of open innovation and how AstraZeneca orchestrates collaborations and growth through innovation. We believe that diversity drives innovation.

Each new company or academic group adds more ingredients and flavours to the innovation experiment we're cooking up in the BioVentureHub. We're creating a melting pot in which collaborative innovation can flourish.

We would like to evaluate how you believe your company can contribute, complement and ensure a mutual exchange with other BioVentureHub companies and/or AstraZeneca. Please send your application to pernilla.isberg@astrazeneca.com.
